

Pitty Sing, Go Cry

I lost my love on the other side
I lost my love and I fear tonight
I'll lose my love and get fucked up and get fucked up all night
I love my teacher with the highest words
I love my teacher and I'm not absurd
And nothing makes madder than Fridays on Sundays

When I just think of you
Go if you want to, cry if you want to
Go if you want to, cry if you want to
Go if you want to, cry if you want to

I loved my women on the second war
I loved my women now I seen it all
And nothing makes madder than ever come round here again
I love my dad with my all and all
I loved my dad through his rise and fall
And nothing makes madder than Saturday traffic

When I just think of you
Go if you want to, cry if you want to:.

Outside it never seemed so cold
Outside it never seemed so
Ordinary, ordinary
Outside said he never needs you, outside said he never needs you
Outside said he never needs you going
