

# Pixies, All Over The World

With a pet at my side  
God in the sky  
Snow falling down  
Freeze my body to the ground  
I can't ride  
But one more time  
I will ride  
All over the world

Washed over the side  
Top of the sky  
Slow diver down  
Two feet land on a different ground  
You can't live easily  
You can't even speak  
But all of them speak  
All over the world

I will meet you over there  
I am going to meet you over there  
Washed over the side  
Top of the sky  
Slow diver down  
Two feet land on a different ground  
You can't live easily  
You can't even speak  
Fish all of them speak  
All over the world

A plain with no herd  
Not even a bird  
When one side is hot  
The other side of the moon is not  
It's just like a ride  
Maybe some time  
They'll make it a ride  
All over the world

I will meet you over there  
I am going to meet you over there

Time is an arrangement  
Time is an arranger  
I am a derangement

All my thoughts  
All I am are my thoughts  
All my thoughts  
I am all what I'm taught

Better call the ranger  
Got a train derailment  
Better call the ranger

What I'm taught  
All I am are my thoughts  
All my thoughts  
All I am are my thoughts  
What I'm not
