

# Pixies, Blown Away

Now the sun is burning  
In deepest space  
That's the way things are  
Through a storm I called you  
It fell each day  
I didn't get so far  
My words get blown away

My lips are moving  
If you touch my face  
Did you hear my screams?  
While we were sleeping  
I tried to say  
Even in my dreams  
My words get blown away

Now the sun is burning  
In deepest space  
I didn't get so far
