

Pizzicato Five, Magic Carpet Ride (English)

Just look at the two of us
We're such a funny pair
For such a long time now
We have been friends, da yo ne

So many light years have passed
This magic made our love last
We're deeper in love now
Doesn't it feel so, so right?

We know someday we'll die
And that life is a lie
But with your hand in mine
We'll love for all time
Every day we'll laugh together
We can make it last forever now
Magic carpet ride
Magic carpet ride

It's just like a magic spell
We wake up just you and me
Your fragrance is fine like a flower in my mind
Just for me

So many light years have passed
This magic made our love last
We're deeper in love now
Doesn't it feel so, so right?

We know someday we'll die
And that life is a lie
But with your hand in mine
We'll love for all time
Every day we'll laugh together
We can make it last forever now
Magic carpet ride
Magic carpet ride

There's a child in my mind
And I know we will find
That our joy is divine
It never ends
We were meant to be together
Way before the sun and moon
And I
Think our love will last forever

Magic carpet ride,
Magic carpet ride
