

PJ Harvey, Cat on the Wall

I heard our song on the radio
It wasn't long before I think of you
Can't get the sound outta my head
Don't look now it's coming round again
I saved your voice from the telephone
I play it back on the message machine
It really sounds like you're having fun
I'm going out into the midday sun
Come night, I'm gonna step outside
Take a walk, I'm gonna clear my mind
The radio, still playing our song
You got me jumping like a cat on the wall
Turn up the radio
They play the radio in my dreams
Takes me back to when I was 17
Dancing in circles on the kitchen floor
I'll play this song 'til I can't take anymore
