

# PJ Harvey, Working For The Man

In the night I look for love  
Get my strength from the man above  
God of piston, god of steel  
God is here behind the wheel

I'm just working for the man

Pretty things get in my car  
Take them flying, it's not far  
Take in handsome, take in me  
Look good in my steel machine

I'm just working for the man

Don't you know yet who I am  
Working harder for the man  
Go around I'm doing good  
Get my strength from the man above

I'm just working for the man

I'm just doing what I can

Go around I'm doing good [X8]
