

# Placebo, Allergic (To Thoughts Of Mother Earth)

Any means in your horizon  
Heaven in a tourniquet  
The after life to keep your eyes on  
Bitter pill you take you take today  
With expert levitation forward  
Polished to the nth degree  
It takes it's smile from every children  
You take the beating

Any means in your horizon  
Everything walks two by two  
We gamble to be born again  
You know I never wanted to  
With expert levitation forward  
Polished to the nth degree  
It takes it's smile from every children  
You take the beating

The light divining  
The light defining  
The light divining  
The light divining

Don't let me down  
Let me-he  
Let me down  
Let me-he  
Don't let me down  
Let me-he  
Let me down  
Let me. x2

The light defining  
The light divining  
The light divining
