Placebo, Come undone

You dont know how youre coming across You dont know what youre coming across

You dont know who youre coming across

You dont know how youre coming across

So you come undoné

You dont know how youre coming across

Acting like you dont give a toss

Walking around like youre on some kind of cross

Ans its a shame on you, the ironys lost

When you come undone

You come undone

You know, you come undone

You know, you know, you know

You dont know how youre coming across

You dont know how youre coming across

And i dont think that youre aware of the cost

So you come undone

You come

You come undone

You know, you know, you know
