

# Plain White T's, You And Me

You and me, we like the same kind of music  
That's why we, make a good you and me  
We got style, baby we know how to use it  
That's why we, make a good you and me

You know what I'm going to say before my mouth even makes a sound  
And that's why we make a good you and me

You and me, we couldn't stand being normal  
That's why we, make a good you and me  
We both laugh, at the most random situations  
That's the key, baby don't you agree?

You know what I'm going to say before my mouth even makes a sound  
And that's why we make a good you and me  
I know from the sound of your breathing exactly what you are feeling  
This is why we make a good you and me  
Make a good you and me  
Make a good you and me  
You and me

Ah ah ah  
You and me, all we need is each other  
That's why we, make a good you and me

You know what I'm going to say before my mouth even makes a sound  
And that's why we make a good you and me  
I know from the sound of your breathing exactly what you are feeling  
This is why we make a good you and me  
Make a good you and me  
Make a good you and me  
You and me
