

# Planet Funk, Inside The People

Inside all the people a jet black spark  
rippling like magma in their hearts  
under all the hot lights n' gyroscopes  
physically pulsing as they shake their bones  
feeling kinda lonely with a vodka and coke  
feeling kinda lonely underneath the soul  
I was... feeling kinda lonely  
boys are shaking girls are rotating  
make my real life melt into the floor  
boys are shaking girls are rotating  
make my real life melt into the floor  
inside all the people an onyx flame  
flickering and rising into their brains  
smothered in a blue light  
covered in a noise  
Oscillating girls  
Oscillating boys  
feeling kinda lonely with a vodka and coke  
feeling kinda lonely underneath the soul  
I was... feeling kinda lonely  
boys are shaking girls are rotating  
make my real life melt into the floor  
boys are shaking girls are rotating  
make my real life melt into the floor  
make my real life melt into the floor  
boys are shaking girls are rotating  
make my real life melt into the floor  
boys are shaking girls are rotating  
make my real life melt into the floor
