

# Planet Smashers, Do No Wrong

Expect to anticipate  
Nothing comes for free  
Except me, yeah the night's in front of us

Let's tempt fate  
Take the bait try and see  
You and me, forget what's behind us  
The past is gone  
We're gonna make it through the night

We can do no wrong  
When we're doing it right  
Right now, right now, right now, right

We're too strong  
It's not a question of might  
Right now, right now, right now, right

Done with being  
So hard done by  
Now I won't ever look back  
I'm abandoning

Wondering why  
She's mine  
We both know  
The past is gone  
We're gonna make it through the night

We can do no wrong  
When we're doing it right  
Right now, right now, right now, right

We're too strong  
It's not a question of might  
Right now, right now, right now, whoo!

The past is gone  
We're gonna make it through the night

We can do no wrong  
When we're doing it right  
Right now, right now, right now, right

We're too strong  
It's not a question of might  
Right now, right now, right now, right

We can do no wrong  
When we're doing it right  
Right now, right now, right now, right

We're too strong  
It's not a question of might  
Right now, right now, right now, right  
Right now, right now, right now, right  
Right now, right now, right now, whoo!
