

Planetshakers, Shake The Planet

The Holy Spirit's got me pumpin'
Flowing with the beat this whole place is jumpin'
To the sound the demons can't stand it
Cause tonight we're going to shake this planet

We're gonna shake this planet
And turn it upside down
We're gonna praise Him where His presence can be found
We're gonna shout His praises
Foe He's the one who reigns
We're gonna sing it till the whole world has been saved

Shake this planet turn it upside down
With your Spirit come and make a sound
Save this generation going down
Fill us cause tonight we're going to shake this planet
