

# Plants And Animals, Feedback In The Field

(Whistling)

I can feel the planets at work  
I can feel them moving  
Oh  
There's something in the air tonight  
the winter birds returning

And the feedback in the fields when the mating song begins  
Like animals, they play (???)

I can feel it changing inside  
It's like a weight has been lifted  
Oh there's something that's controlling me  
Let the moon turn the tides

(Alright!)

The feedback in the fields when the mating song begins  
Like animals, they play (???)
