

Plants And Animals, Feedback In The Field

(Whistling)

I can feel the planets at work
I can feel them moving
Oh
There's something in the air tonight
the winter birds returning

And the feedback in the fields when the mating song begins
Like animals, they play (???)

I can feel it changing inside
It's like a weight has been lifted
Oh there's something that's controlling me
Let the moon turn the tides

(Alright!)

The feedback in the fields when the mating song begins
Like animals, they play (???)
