

# Platinum Blonde, If You Go This Time

Every time she moved, I'd lose control  
I remember all the scenes we stole  
We were the ones to stand out, in a crowd  
The young lions, on the prowl  
You don't believe it but it's true  
I'm over you

If you go this time  
You won't steal my heart  
Cause I think that I can live without you  
If you go this time  
I won't fall apart

It took a while for me  
To realize when you're not around  
I'm building the strength just to carry on  
And when you'd come back I would fall  
But you're not taking it all

Cause I think that I can live without you  
You said our last dance  
Was our last chance  
To get it back!
