

Platitude, Just One Try

You cried out
This is what I'm proposing
Please stay with me
I'm yours forever

This is your life
Just one try
No one will live forever
Let it be done 'cause tomorrow you're gone

Just don't change your mind for me my
Don't live in lies for me my love

If this is love we're committed forever
Signs from above will get us nowhere

This is your life
Just one try
No one will live forever
We will be one 'cause tomorrow you're gone

Just don't change your mind for me my
Don't live in lies for me my love

Please tell the truth before it's too late
You are my hope
Please kill my hate

This is your life
Just one try
No one will live forever
Let it be done 'cause tomorrow you're gone

Just don't change your mind for me my
Don't live in lies for me my love
