

Play & Win, London's rain

I can be your love again
(I just wanna let you know
I will never have to let you go
I can be your love again
Just remember once again
When were dancing in the London`s rain)
Slow down,slow down,slow down
You broken my heart again
Broken my soul again
Move on,move on,move on
I feel like I`m going down
Tell me what`s going on
I just wanna let you know
I will never have to let you go
I can be your love again
Just remember once again
When were dancing in the London`s rain
I can be your love again
I just wanna let you know
I will never have to let you go
I can be your love again
Just remember once again
When were dancing in the London`s rain
I can be your love again
Take control,take control
Take me everything I got inside my empty soul
Walk with me,stay with me
And I show how I`ll be
I just wanna let you know
I will never have to let you go
I can be your love again
Just remember once again
When were dancing in the London`s rain
I can be your love again
I can be your love again
(I just wanna let you know
I will never have to let you go
I can be your love again
Just remember once again
When were dancing in the London`s rain)
I just wanna let you know
I will never have to let you go
I can be your love again
Just remember once again
When were dancing in the London`s rain
I can be your love agan
