

Playa, Push

The one I dream of in the middle of the night
is the same one I talk about
she really can work it right
it's you I speak of lady
You keep me going and all I'm tryin' to say

chorus:

I like it when you PUSH slowly
I done got caught up out there thinkin' 'bout you sexually
It's all about you PUSH
It's the way you make me feel girl
(it's all in my head)
And sometimes we don't even go nowhere
(We just stay in bed)
And all the special times we shared
(They can't be compared)
And I can't get you out of my mind

Chorus:

(Work it baby, work it baby)
Everything that I want, everything that I need you provide
girl I like the way you walk and the way you talk
(Work it baby, work it baby)
Everything that I want, everything that I need you provide I like
