(I'll take you, girl I'll take you)
'Cause see my love will take you up and down and side to side

And had to touch yourself (I'll make ya, girl I'll make ya)
Even when you thought we were though oh I

Together
We're on my mind all the time

And I love it when you put on your sexy lingerie
So I can see ya (that body, work that body)
An in a crowded room oh you never

They say soon I'll get tired of you

I can't help but to be satisfied
