Plazma, Home

I've been led astray By my body's flame, desire's flame I've been almost blind Going through the storm But God's sent me you

Lead me home Lead me home Be my guide Through the storm Take me home Take me home I'll settle down Ill settle down

I've been led astray All those empty years, lonely years I've been almost blind... Now I've found a guide 'Cause God's sent me you

Lead me home Lead me home Make me find Peace of mind Take me home Show me home I'll settle down To the ground
