

Plazma, Take My Love

Everybody says you're not the one
Everybody says I lost my way
Baby, maybe I'm doing wrong
Don't care, I feel okay

Everybody says I lost my head
But I never wanna turn my way
Everybody says you drive me mad
Don't care 'cause it's too late

No matter when I'm with you
I do what you want me to
You know I never will go
You drive me wild with your charms
You hold me tight in your arms
Girl, you tease me, I know
And you make my love grow
Do you want me on my knees?

Take my love, never dying
Take my love, neverending
Take my love, never dying
Give me yours
Take my love, never dying
Take my love and hear me crying
Take my love, take my love

You are the queen of my heart
You're tearing me all apart
No, I never will go
You wonder if I love you
I always say, "Yes, I do"
Girl, you tease me, I know
And you make my love grow
Do you want me on my knees?

Don't leave me alone
But you've got a heart of stone
Prove me wrong
