

# Plazma, You Know (My Recent Desease)

You know my recent disease  
I feel so alone  
I got this feeling our love's  
In a danger zone  
You know I could be wrong  
Trying patiently  
I gave up all the things  
That always mattered to me

Ooh baby take me tonight  
Heal me now with our love delight  
Ooh baby hold me tonight  
Feel me this is our love delight

Ooh baby  
Keep shining  
On the wings flying  
So lovely tonight

I try to hide it all  
We've been through  
Some good memories hurt  
More than bad ones do  
I know you always choose  
Clarity  
I forgot all the names  
That once mattered to me
