

Plumb, Here With Me

In my head I have dreams
I have visions of many things
Questions, longings in my mind

Pictures fill my head
I feel so trapped instead but
Trapped doesn't seem so bad
'Cause You are here

It doesn't mean anything
Without You here with me
And I can try to justify
But I still need You here with me

In my heart I had hope
Built on dreams I'll never know
Answers to love left behind

Visions filled my head
I felt so trapped instead but
Trapped didn't seem so bad
'Cause You were near

It doesn't mean anything
Without You here with me
And I can try to justify
But I still need You here with me

I can't do anything without You
You give me strength to do anything
I can't be everything I try to
You saved me from the everything
I couldn't be

It doesn't mean anything
Without You here with me
And I can try to justify
But I still need You here with me

It doesn't mean anything
Without You here with me
'Cause after all is said and done
I still need You here with me

Need You here with me
I need You here with me
