

Plus/Minus, Fadeout

Take no solace in my sense of what to do
My eyes are closed
and I've got no blindfold
Still I'm driving you home

Take the time you will see
everybody knows what's been going on

Mainline
Fadeout
Heartache
don't know what to do
I look for something more
A bad taste
Still I'm driving you home

Take the time you will see
everybody knows what's been going on
No heartache
Figure out what's the deal
Everybody knows what is going on

Break out
Do it now
Don't wait for a sense of what to do
You never know unless you do
No blindfold
Still I'm driving you home

Take the time you will see
everybody knows what's been going on
No heartache
Figure out what's the deal
Everybody knows what is going on
