

Plus/Minus, The Important Thing Is Love

Hey I am shutting down
Think they got me good
When they lulled me to sleep
Never mind that I sow and they reap

But hey I can wipe it all
Erase everything
Just by holding delete
Till I find something good

Hey I've become undone
I misunderstood
Talk like I'm on TV
Where's my mind? Heaven knows who I've been

So hey I'll be coming down
Hard on everything
I've been led to believe
Hope I find something good

I used to be so full of love
The important thing is to love.
