

Plus/Minus, Trapped Under Ice Floes

So stuck inside
No bars are on the windows
try to stem the tide
it's more than you can swallow

Ice coursing through the veins now
through the arteries
cold from the neck down
your fingers frozen
is that it for you?

Trapped under ice floes
Swimming toward the exit
Up from the cold
So numb you barely felt it

Ice coursing through the veins now
through the arteries
cold from the neck down
your fingers frozen
is that it for you?
All you can do to stop it
Is sink down
and hope that you don't drown
take a deep breath
and dive right into it

yeah you're coming down.
