

# Plus One, Outlaw

Look over your shoulder  
Remember that you're older  
Forget about who told ya  
That everything is over

You don't have to change your name  
You can outrun your chasing blame  
Just like an outlaw each one of us will get away

Look over your shoulder  
The past will make you bolder  
And even if it's colder  
You'll be one step closer

You don't have to change your name  
You can outrun your chasing blame  
Just like an outlaw each one of us will get away

Rise, saints and sinners rise  
Today we're equal  
Unite. all of us unite  
The time has finally come  
Where we will be as one

You don't have to change your name  
You can outrun your chasing blame  
Just like an outlaw each one of us will get away

You don't have to change your name  
You can outrun your chasing blame  
Just like an outlaw each one of us will get away
