

# Plus One, Start To Fly

You've had your taste of all  
that's sweet  
Now you're through and what  
does it mean  
You've sought the truth, found a lie  
You've given up but it doesn't make it right

You wanna go, I know you  
wanna leave  
Ya gotta go, farther than you see

Chorus:

If you just look past your scars  
You will see it's not that far  
Don't close your mind  
Let God inside  
Begin to breathe, Start to fly  
Start to fly

Wake from your sleep,  
start your dream  
It's okay to believe what you  
don't see  
Give it away, your heart  
wont break  
This is a chance that you're  
gonna have to take

You wanna go, I know you  
wanna leave  
Ya gotta go, farther than you see

Repeat Chorus

Just close your eyes, hold on tight  
You don't have to be afraid He is  
with you all the time  
You'll be so free, full of peace  
And everything that you need, it is  
right there can't you see

Repeat Chorus
