

Plus One, Written On My Heart

(Verse 1)

Thinkin' how it might've been
if you had never walked into my life
I would have been nothing
without you where would I be

Every moment used to feel(used to feel)
Like living through a cold and starless night
But everything's changing
everything is feeling right

Chorus

You(you) gave me your love
lifted me up
now i'm looking at forever
when i never thought i'd ever see that far
(ever see that far)
you(you) you're in my soul
wherever I go
Now I know right from the start
your love was written on my heart

(Verse 2)

How could I have been so blind
when you were always here so near to me
and there is no other
who knows me the way i feel you do

and you were waiting all the time
for me to come around to finally see
all the love i was missing
there you were right beside
always beside me

Repeat (Chorus)

(you made it so easy) you're love brought out the best in me
(you are my light and my truth) Ive found my destiny in you

Repeat (Chorus)X2

You're love was written on my heart...
You're forever written on my heart...
