

Podunk, Dashboard Mary

Dashboard mary sing to me
Get me down this road
My feet are tired and I am hungry
I've got nowhere to go
And I've been driving for a while

Dashboard mary speak to me
I need to hear your voice
The road is winding and my time is flying
I need to feel this whole
And I've been driving for a while
Just give me something to get me through another mile

Give me love, give me love
I'll keep on driving while your spirit watches over me
Give me love, give me love
I'll keep on driving till tomorrow brings another day

Dashboard mary bless my soul
I'm all torn up inside
I've been riding to keep from crying
Help me find the light
Just give me something to get me through another mile

Give me love, give me love
I'll keep on driving while your spirit watches over me
Give me love, give me love
I'll keep on driving till tomorrow brings another day

Dashboard mary sing to me
Get me down this road
Just give me something to get me through this

Give me love, give me love
I'll keep on driving while your spirit watches over me
Give me love, give me love
I'll keep on driving till tomorrow brings another day

Give me love, give me love
I'll keep on driving while your spirit watches over me
Give me love, give me love
I'll keep on driving till tomorrow brings another day
