

Podunk, Summer Song

There is nothing like the
Smell of a summer breeze
Nothing like the chill from
The shadow of a shady tree
Gonna go down to the river
Gonna go down make it right
And send all my love to your maker
For making you right

Are you ready for a new day, a new day
Blow me a kiss and send it straight to the sun
And if you want to take it my way, my way
Then this could be our summer song

There's nothing like the
Way that you say your on my side
And I want to know that
Words help me days go by
Gonna go down to the river
Gonna go down make it right
And send all my love to your maker
Ffor making you right

Are you ready for a new day, a new day
Blow me a kiss and send it straight to the sun
And if you want to take it my way, my way
Then this could be our summer song

Let me make you understand
Just take me by the hand
Let me show you all i can
And be your only man
If I could only make you see
Just what you mean to me
You know it won't be to long
Till we sing our summer song

Are you ready for a new day, a new day
Blow me a kiss and send it straight to the sun
And if you want to take it my way, my way
Then this could be our summer song
