

# Point Break, What About Us (Album Version)

What about us baby, what about us? (x6)

Look into my mind, there's visions of you  
I cannot sleep at night, for fear of the truth  
Should I take the blame, should I stand in your way  
Or is it too much to late?

Look into my eyes, I'm dazed by the light  
It took me by surprise, your sadness last night  
Maybe it is fate that we made this mistake  
Now it's too much too late

What about us baby, what about us? (x2)

[Chorus]  
What about us?  
Are you scared enough that you need someone to run to  
What about us?  
Are you strong enough to throw the dream away  
What about us?  
Are you scared enough that you need someone to run to  
Reality come back to me, come back to me, come back to me...

what about us baby, what about us (x4)

Look into the past, reflect on the pain  
Did we move too fast, while feeling the strain?  
Why, are we feeling this hate?  
Now it's too much too late...

what about us baby, what about us (x2)

[Chorus]

[Rap]  
What about us baby, you know you gotta realise  
Ooh come on you know you've got me hypnotised  
Out of control, got no soul  
At the stage of the game, the danger of the roll of the dice  
You're playing round with our lives  
Making all the decisions no alibis  
So lets feel the flow, and lock the door  
But don't fuss and tell me some i wanna know about us

Maybe it is fate that we made this mistake  
Now it's too much too late...

What bout us baby, what about us (x2)

[Chorus] to fade
