

# Point Of Grace, By Heart

Your shining light  
Has changed my life  
It's like I've found my way home  
I know You're near  
Hear you loud and clear  
I could live on this feeling alone  
Everywhere I go You are right there beside  
Anytime of night or day

Your name is on my lips  
Your love I can't resist  
Got to be with You wherever You are  
I want You memorized  
So when I close my eyes  
All I have to do, is keep loving you  
By heart

I don't have to see  
See You to believe  
That You're not going away  
I know You'll be  
Watching over me  
You're the shelter that's keeping me safe  
I know your arms they can reach out to hold me  
Even when I'm feeling alone

(CHORUS)

(comes naturally)  
Like every breath I breath  
(don't have to think)  
It's second nature to me  
I close my eyes  
And You are there with me  
You know me  
You see me  
You hear me  
You heal me

(Chorus)
