Point Of Grace, Day By Day

I'm not unhappy but I'd take the train today

If you'd let me

If you'd let me

They may be clapping for me but I wait for you to come get me

Come, come get me

Cause day by day you're coming closer

Making our way clearer and straighter

Turning our faces into the light

And I can't wait to fall at your glory

On my face down in the morning

You're coming closer

Day by day

Somebody told me I could travel the world

To find beauty

To find beauty

But to behold it I would have to keep ?? me

Yeah well it's in me

Cause day by day you're coming closer

Making our way clearer and straighter

Turning our faces into the light

And I can't wait to fall at your glory

On my face down in the morning

You're coming closer

Day by day

Give me a mission if I've still got the time

Cause I'm open

Yeah I'm open

Be my vision and I'll be your delight

Cause I'm going wherever you're going

Turning faces into the light

And I can't wait to fall at your glory

On my face down in the morning

You're coming closer

Day by day

Cause day by day you're coming closer

Making our way clearer and straighter

Turning our faces into the light

And I can't wait to fall at your glory

On my face down in the morning

You're coming closer

Day by day

Cause day by day you're coming closer

Making our way clearer and straighter

Turning our faces into the light

And I can't wait to fall at your glory

On my face down in the morning

You're coming closer

Day by day
