

Point Of Grace, Gone Are The Dark Days

VERSE 1

be still my beating heart
love is whispering your name
there were years suffering in the dark
fighting back the tears and pain
but love has kept me safe and sound
those days that seemed like endless nights
can not be found
they're behind me now

CHORUS

gone are the dark days
that had me so confused
now im countin the tender ways
that your love has broken through
and through these eyes
no longer covered
I see love that's like no other love
I've ever known

VERSE 2

you think I'd know by now
that your life will light my way
but if I ever start to doubt
and my strength begins to fade
I will be calling out to you
each day you give
reminds me that your love is true
and it comes shining through

CHORUS

gone are the dark days
that had me so confused
now im countin the tender ways
that your love has broken through
and through these eyes
no longer covered
I see love that's like no other love
I've ever known

BRIDGE

and as the ages pass
until I breath my last
I will be calling out to you
each day you give
reminds me that your love is true
and it comes shining through

CHORUS

gone are the dark days
that had me so confused
now im countin the tender ways
that your love has broken through
and through these eyes
no longer covered
I see love that's like no other love
I've ever known

Gone are the dark days, dark days
(I saw the light, I saw the light)
Gone are the dark days, dark days
(I saw the light, I saw the light)
Gone are the dark days, dark days
(I saw the light, I saw the light)
