

Point Of Grace, Got To Be Time

So sad
Depression deep inside has got your heart held down
And you're afraid to feel
Too bad
Because life is here for living
God desires to give you joy beyond imagination
And so the saying goes
You gotta stop and smell the roses

(Chorus)
Got to be time for dancing
Got to be time for singing
Take the time to celebrate
The fire of the moment
Got to be time for laughing
Got to be time for shouting
Thank the lord for what he's done
There's got to be time

You've got to hold on
Don't let the smallest struggle steal the victory
When you weep in the night
Stay strong
Because joy comes in the morning
Jesus longs to help you make
The most of your salvation
And so the saying goes
You gotta stop and smell the roses

(Repeat Chorus)

So turn it up
Turn up the music, turn up the music
Let the rhythm set you free to move again
Hey, turn it up
Turn up the music, turn up the music
You owe it to yourself to hang on tight and lose control
You can feel it in you soul

Dancing, singing celebration
There's got to be time
Laughing, shouting, celebration
There's got to be time (3X)

(Repeat Chorus) 2X
