

Point Of Grace, Make It Real

Dana Glover, Dillon O'Brian, Robert Thiele

Well we walk, down the road, everyday
With a plastic smile and we wave like we're in a parade

Oooh and then we pass one another
With a nothing but a "how do you do" and a smile
Oh but it would make me smile
If we'd stop for awhile
And just give me the truth now

We can make it real
Open your heart
'Cause that's when you start
To truly feel
We can make it real
Look in my eyes
You feel it inside
Yea you know you will
We can make it real now now
We can make it

Let your mind take a walk in the rain
Let your head roll back, taste the joy, remember the pain

'Cause we can talk about the weather
We can weather it together my friend
Yes we can
And the sun will shine on your heart and mine
We will feel it again and again and again

Chorus

This life that we're livin
It's all that we're given
There's so little precious time
Cause now it's the moment
Let your emotions breathe in the open sky
Fly

We can make it real now
We can try to make it real

Oh yea
Open your heart
'Cause that's when you start
To truly feel
We can make it real
Look in my eyes
You'll feel it inside
Yea you know you will

Open your heart
'Cause that's when you start
To truly feel

We can make it
We can make it real

Yea you know we can
We can make it real
Yea
