

# Point Of Grace, Rain On Me

Showers of sadness flood my soul  
In the dryness of my pain  
I watch for a rainbow, when my heart turns grey  
As I long for yesterday  
I know that I need you  
In the times that I stray  
So I'll follow like night after day  
I need You to rain down on me  
Please pour down Your light  
For this is my lifeline  
I need You to rain down on me  
The weather is fine when You rain on me  
The weather is fine when You rain on me  
Power of gladness takes control  
when it's streaming from Your face  
You vanish my sorrow  
You wash it away  
Like the song I ever made  
I know that I need you  
In the times that I stray  
And I'll follow like night after day  
I need You to rain down on me  
Please pour down Your light  
For this is my lifeline  
I need You to rain down on me  
The weather is fine when You rain on me  
The weather is fine when You rain on me  
Waterfalls, lift my eyes from my own face  
Thank heaven for  
Straight from my heart, it brings more embrace  
I need You to rain down on me  
Please pour down Your light  
For this is my lifeline  
I need You to rain down on me  
The weather is fine when You rain on me(x3)
