

Point Of Grace, Take Me Back

Been too long chasing selfish dreams
Seeking only what my heart desired for
I drifted so far away it seems
From the truth that set my soul on fire

How many times will it take for me to see
You're the only love my heart will ever need

Chorus

Take me back, take me back Jesus
Take me back to where i can know your love
Take me back, take me back Jesus
Take me back, wont you take me back
Take me back, take me back Jesus
Take me back to where i can feel your love
Take me back, take me back Jesus
Take me back

I want to know your love

Like the Prodigal far from home
Lost inside a world of my own choosing
Tried to make it out on my own
Never realized all I'd be losing

I still remember just how it used to be
Lord, forgive my weakness
Come and rescue me

repeat chorus

There's no one else i would turn to
You're the only one who can pull me through
You can pull me through

repeat chorus
