

Point Of Grace, Waiting In The Wings

Tony Wood, Mark Harris

Hearts of hope
Seem hard to find these days
As darker deeds
Have their time on center stage

We watch it all
Unfolding scene by scene
And a happy ending
Seems a fading dream

Fear and desperation have their day
At least until faith steps up to say

Chorus
I believe though God is out of sight
He's working in the middle of all things
Evil may have its time in the spotlight
But love is waiting in the wings
Love is waiting in the wings

It's your life
As it plays out don't forget it
Heartache comes
But the stories not done yet

When shadows come, your courage wants to fade
But in a moment, everything can change

Chorus

There's always
More to any story
Than just what's here and now
There's not one
Hopeless situation
That can't be turned around

Chorus
