

Polaris, Recently

Recently,
Recently,
Recently,
Recently,

I acted cool, I asked around,
But you could not be seen,
I was desperate, indifferent
To what everyone thought,
You walked in, I clicked on,
You could not refuse,
It has to be that we know it now,
So get the rocket, light the fuse,

'Cause recently I kissed you,
It's like a dream come true,
Recently you're liking me,
And I'm really liking you.

Never apart, we go around
Siamese, in crazy love,
I learned your quirks & clawed your world,
What did I do before you?

Because recently I needed to be
With you all the time,
And recently some jealousy
Has crept into my mind.

Recently I managed
That it's good to be alone,
And recently my friends,
They never call me anymore.

Recently I'm happier
Being by myself,
Recently I'm all alone,
But I'm not lonely, (recently)
I'm not lonely, (recently)
I'm not lonely, (recently)
I'm not lonely, (recently)
I'm not lonely. (recently)
