

# Polaris, Summerbaby

Summerbaby, come on baby, show me the town,  
I didn't know that you'd be such a short visit  
Once a year I noticed that you're not around  
Mama says you went when you were exquisite

If you seen all I done,  
When I'm alone I do things nobody knows

We were all wondering where you came from  
Last night we were hypothesizing that you were an angel  
Sometimes it feels like you're looking down  
From up above where angels are found

If you seen all I done,  
When I'm alone I do things that nobody knows  
Every drop of sex, and every little mess I make  
I was around, I was around  
I was around, nobody knows, nobody knows  
I was around, nobody knows, nobody knows  
I was around, nobody knows, nobody knows  
I was around, nobody knows, nobody

Do you see a lot of angels up there like you?  
Wolfgang and Vincent Van Gogh,  
Have you seen Josephine?  
Someone from town like Marshall Brown or someone you know?

If you seen all I done,  
When I'm alone I do things nobody knows  
Every drop of sex and every little mess I make  
I was around, I was around, I was around  
I was around, nobody knows, nobody knows  
I was around, nobody knows, nobody knows  
I was around, nobody knows, nobody knows  
I was around, nobody knows, nobody knows  
I was around, nobody knows, nobody knows, nobody knows  
I was around, nobody knows, nobody knows, nobody knows  
I was around, nobody knows, nobody knows, nobody knows  
I was around, nobody knows, nobody knows, nobody knows
