

# Polopop, My Dream

Close your eyes  
Give in to my dream  
Cling to the song of your senses  
Drift from your mind  
Let tethers unwind  
Release as your body tenses

Slip from my hold  
Feel cold, don't regret it  
Sip from my soul  
So cold, if you let it

Watch the moon rise  
Come into my dream  
Cool is the night shine dew  
Take what I give  
To want is to live  
This love, from me to you

(cold my dream)
