

# Polopop, Time

I don't know why you keep telling me  
Everything I want to hear  
I'm trying not to listen when you tell me that  
You will always be here

It's time to start telling it to me like it is  
I want to find us like I think it already is

I find myself wondering what it is  
I have to fear  
'Cause every time I ask you you keep telling me that  
You will always be here
