

Poluzjanci, I Found My Way

I've done my best
To know what I'm about
I've travelled far
To stop feeling lonely

I've been through hell
And I've walked on fields of paradise
I've done my best
And I found, I found my way

Oh, can you smell the rain?
Can you feel that something's coming?
If you dare to stop
You can see there's more than running

We're caught in a circle
Told we cannot be who we want to be
It's a wicked game
But I know you can find your way

The time is never on our side
We are leaving more and more behind
We are feeding ourselves with news
Just to see we're all out of power
