

# Poor Man's Riches, For The Taking

From the moment that I felt You  
I knew I'd never be the same  
And from the moment that You spoke to me  
I've known no other way  
Taken captive by Your presence  
A prisoner held in chains  
Shackled by the one who owns me  
A servant to the throne of grace

You are the one that changed my life  
And it's only for the better  
Gravitating weaknesses paying back borrowed time  
Turning over all the madness, giving rise to what is real  
All that I am I offer You  
For the taking

Now my friend I'm talking to you  
It's the moment that you breathe for  
This time was made for changing  
He stands waiting at your souls door  
The stillness of the room consumes you  
Conviction eats you alive  
Blown away by the peace within you  
Welcome to the book of life

You are the one that changed my life  
And it's only for the better  
Gravitating weaknesses paying back borrowed time  
Turning over all the madness, giving rise to what is real  
All that I am I offer You  
For the taking

He is the one to change your life  
The time has never been better  
He stands here for the taking  
To wipe away the one you used to be

You are the one that changed my life  
And it's only for the better  
Gravitating weaknesses paying back borrowed time  
Turning over all the madness, giving rise to what is real  
All that I am I offer You  
For the taking
