## Poor Old Lu, Shine

'Shine' was written awhile before Mindsize was recorded and, in fact, had no ties (musically) to any

This song's meaning can really be wrapped up in the chorus, "In a simple way, though I be so

What is it like when it's gone? All the day and the night and the song And what seems so real Is what keeps us from the dawn

Truly I know it sometimes I see the reasons and signs That this world can only turn so many times

In a simple way
Though I be so wrong
Though I turn away
I know where I belong

Feelings all around in me Do this, do that, and you'll see That it's hard to find Just what we need where we seek

I'll say it again that I've tried To find the right ways on this ride Where we're upside down And we still will try to hide

In a simple way Though I be so wrong Though I turn away I know where I belong

And the Son will shine And the reign won't fall And I know inside How He loves us all

Our hands will get so that they Can't pull us up all the day We need to find that now we have to say
