

# POP ETC, Keep It For Your Own

Can't wait for your empty hand  
and work it for love  
just tryin to get by of the cold  
Our heart on to little tongue a little to let  
Shake my way banded the way they go

I had to run  
couldn't stop, oh  
you had to go

You gotta keep it for you,  
You gotta keep it for you,  
We gotta keep it for you,  
We gotta keep it for you.

Do we always live feel in my  
And I get it shake it for you thinking of time  
I have to live caught in the middle  
run in circles that all the people lie on  
I had to run,  
Couldn't stop  
You had to know

You gotta keep it for you,  
You gotta keep it for you,  
We gotta keep it for you,  
You gotta keep it for you.

I gotta keep it from you

Don't believe me to find I'll always to find pieces  
Mine you need to find your own way and pieces  
Time to find your own way

You gotta keep it for you,  
You gotta keep it for you,  
We gotta keep it for you,  
You gotta keep it for you.
