

# Pop Will Eat Itself, Inside You

Love's just the word for boy meets girl when you know it's fear we've found  
You're scared of me and I'm scared of you - we'll never get by without it  
The things I do that don't include you, sometimes it grinds you down  
I know you'd do anything just to have me around

[CHORUS]

I never say I love you, I don't think you expect me to  
But there's no mistaking that special feeling when I'm inside you  
When I'm inside you

The fear goes round till it goes bust, it's all so sad about us  
The things you've learnt with your fingers burnt  
Is nothing changes nothing much

[CHORUS]

The things I do don't help me  
What can I do - I know it's crazy  
But these things are always on my mind when I'm inside you  
When I'm inside you (x4)  
When I'm inside you (oh yeah) (x4)  
When I'm inside you
