

Popsie, Love Technology

If you need some more, but don't wanna score
Take my advice and get your own device
A magic wand will take you beyond
Don't feel ashamed it's only a game
Forget reality, reach trance
Give your body a physical romance

(Chorus)

Use your love technology
To please your body biology, it's only a game
Use your love technology, to please your body biology
Love tech, technology

Push up the top gear on your little spear
It's getting hot while hitting the girlee spot
When your on fire, it quench your desire
It's not a sin so let the game begin
Just feel the vibration
Mmm bloodsystem in circulation

(Chorus)

Use your love technology
To please your body biology, A magical wand
Use your love technology, to please your body biology
Love tech, technology

Live out our fantasy with this machine
It will take you to places you never been
While looking for a loving friend
This nicety substitute we recommend
It's never too late for an erotic state
Try this treasure for your pleasure

(Chorus)

Use your love technology
To please your body biology, it's only a game
Use your love technology, to please your body biology
Love tech, technology
